A large dinner party was given at the house General Horace Porter, after smiting Philadelphi A large gathering of relatives were present on both and Philadelphians, last night gathered them to his one embrace by the compliment which he paid to the City of Brotherly Love when he said that New York had to go to Philadelphia to get a man to rur york had to go to rainatelphia to get a man to run one of their newest and biggest hotels. At this George Boldt, who has charge of the Hotel Waldorf, where this occurred, smiled a pleasant smile and everybody applianded heartly. The occasion was thirteenth annual dinner of the Clover Any one who hasn't heard of the Clove Onb hasn't heard of Philadelphia. When it comes saying things and doing things distinctively origina Bowery isn't in it. They began thirteen year ago in the Bellevue Hotel, when Mr. Boldt was the caterer at that famous hostlery in the Quaker City and now that Mr. Boldt is here the club followed him and he welcomed them in a way that will remain orable. The dinner was eaten in the ballre which is on the ground floor. The tables were arranged in the form of a sprig of clover. Three large apple trees in full blossom were planted like a triangle in the room. They were cut and brought from Philadelphia yesterday, and a hope was expressed that this piece of enterprise augured well for the early adoption of rapid transit in that ancient town. Wreath of smilax trailed along the tables, and a whole lot of active worker in the business which he established in Canal-st. In 1844, and which has been carried on bunches of clover which Mr. Boldt brought from Pennsylvania were distributed around.

Clover Club men must have Southdown sheep all the time when they eat mutton, and they had them last night, dead and alive. In the early part of the festivities five waiters appeared and made a circuit of the room. The first led a ram, which was picturesquely harnessed and butted his head as he passed "Tom" Ochfitree, while the other four bore lambs in their fleeces on huge platters. At the same time George C. the first interruption Mr. Brooke met when he begen.

"Nonsense!" thundered the witty lawyer, "I have been in ten barrooms in a night."

Warner Miller's speech consisted of Judge Bunn's introduction: "You need not make my political speech here, or tell us how you 'fell outside the pressivoriss"; and when Frederic Taylor tried his hand by announcing "I came fere prepared for the worst" he was greeted with shouts of "You'll get it!" and a voice; "Who is this man."

Judge Bunn: "I haven't the remotest idea."

THE FASHIONS.

TWO HANDSOME DRESSING-GOWNS-A BOAT-ING DRESS.

A pretty and novel dressing-gown is made of coffee colored satin rhadamante trimmed with brown feathers. The collar is very high, the top part of the Princesse bodice finely pleated like the high cuffs,

and a "jabot" of Indian embroidery covers the front. The back of the gown is in Watteau style.

This is one of the prettiest of modern gowns for my lady's own room. It is made in wool and miroir The back and front are plaited into the neck and fall in large folds, which are fastened to the lining of the corsage by stitches hidden under the

lining as seen in the cut, the folds forming a sort of little jacket, which is lost in the long soft drapery. The lining is cut on the pattern of an ordinary bodice. The sleeves have large velvet puffs, the lower part of wool being buttoned on the inside of

Many fashionable women have omitted their usual Many tashionable women day officers that days orders to their Parislan dressmakers this spring simply because they do not like to trust to the apparently perverted taste of their whilom infallible authorities. "I really do not dare to write for anything," said a lady who generally sends over large orders every season, "because both the colors and the shapes are so queer that I might not be able to wear the gowns after they came."

A funny story comes from Washington about one of these fin-de-l'hiver tollets which do not make

their owners happy.
"Do come and sit beside me," said the wife of a high official at some great social function, clutching a friend who was passing by her, "I am perfectly

miscrable." stopping instantly and fearing that Mrs. been taken suddenly iil. "Just look at me!" ex-claimed the latter ruefully. "Do you see this hideons combination of blue and mauve, all overtrimmed, and so utterly unsuited to my Well, it is a Worth dress just arrived from Paris, which that dear, good husband of mine ordered for me as a delightful surprise. I would not hurt his feelings for the world by telling him how very ugly I find it; and he, poor man, is quite pleased with the nice bright colors.' So I put it on without letting him suspect my feelings, and here I am looking like a guy, my one thought being to keep myself as unobserved as possible."

This pretty little summer boating-gown is of darkblue English linen. The waistcoat is of white duck.

Let all women ordering the popular white waistcoats made of cotton or linen remember that the material must always undergo shrinking before it is made up.

Gives strength and fine flavor to soups and sauces.
